SUBJECT INDEX*

A

Abdominal aorta, inflammatory aneurysms of (Goldstone, Malone, and Moore), 425
spinal cord damage in surgery of (Szilagyi et al.), 38
aortic aneurysm, ruptured, presenting as inferior vena caval obstruction (Gertner, Hargrove, and Roberts), 605
aneurysectomy, adverse effects of transfusion therapy during (Weisel et al.), 682
surgery, response of canine veins to three types of: scanning and electron microscopic study (Schaub, Lynch, and Stewart), 411
Abscess, amebic liver, results of surgery in: experiences in eighty-three patients (Eggleston et al.), 536
Acid, gastric, secretion, gastric mucosal permeability and, before and after hemodialysis in patients with chronic renal failure (Shapira et al.), 528
Adenosine and allopurinol, effect of, on tolerance of collapsed lung to warm ischemia (Hau et al.), 406
triphosphate–magnesium chloride, improved hepatic function and survival with, after hepatic ischemia (Hirasawa, Chaudry, and Baue), 655
Adrenalectomy, medical, and plasma steroids in advanced breast carcinoma (Newsome et al.), 82
Albumin, Ringer's lactate, crystalline hemoglobin, and whole blood, comparison of cardiorespiratory effects of, in resuscitation of hemorrhagic shock in dogs (Nees et al.), 639
Alimentary tract of cat, concentrations of gastrin and secretin in (Miller et al.), 90
Allograft(s) recipients, potential, serum autoleukocytotoxic activity and positive cross-match in (Etheredge and Anderson), 565
renal, cell-mediated immunity to donor antigens in (Burrows et al.), 741
rejection, human renal, analysis of cell specificity of antibody response accompanying (Cerilli, Holliday, and Koolemans-Beynen), 726
viable arterial, maintenance of, by cryopreservation (Boren, Roon, and Moore), 382
Allopurinol and adenosine, effect of, on tolerance of collapsed lung to warm ischemia (Hau et al.), 406
Amebic liver abscess, results of surgery in: experiences in eighty-three patients (Eggleston et al.), 536
Amino acids, arterial plasma, in patients with severe burns (Groves et al.), 139
branched-chain, role of, in decreasing muscle catabolism in vivo (Freund et al.), 611
Aneurysm(s) dissecting, of thoracic aorta, renovascular hypertension following surgical repair of (Rose et al.), 235
inflammatory, of abdominal aorta (Goldstone, Malone, and Moore), 425
ruptured abdominal aortic, presenting as inferior vena caval obstruction (Gertner, Hargrove, and Roberts), 605
Aneurysectomy, abdominal aortic, adverse effects of transfusion therapy during (Weisel et al.), 682
Angina, preinfarction, technique and experience using potassium cardioplegia during myocardial revascularization for (Adams et al.), 12
Angioinvasion, massive, follicular carcinoma of thyroid with: extension of tumor thrombus to heart (Thompson et al.), 451
Anoxia, measurement of cellular edema in, and its prevention by hyperosmolar solutions (Lambotte and Wojcik), 94
Antibiotic bowel suppression, prophylactic, in burn patients, clinical experience with (Jarrett et al.), 523
Antibody response accompanying human renal allograft rejection, analysis of cell specificity of (Cerilli, Holliday, and Koolemans-Beynen), 726
Antigens, donor, cell-mediated immunity to, in renal allograft recipients (Burrows et al.), 741
Aorta, abdominal, inflammatory aneurysms of (Goldstone, Malone, and Moore), 425
spinal cord damage in surgery of (Szilagyi et al.), 38
thoracic, dissecting aneurysm of, renovascular hypertension following surgical repair of (Rose et al.), 235
Aortic aneurysm, ruptured abdominal, presenting as inferior vena caval obstruction (Gertner, Hargrove, and Roberts), 605
aneurysectomy, abdominal, adverse effects of transfusion therapy during (Weisel et al.), 682
surgery, ureteral pathology associated with: report of three unusual cases (Henry and Bernhard), 464
Aortography, lumbar, safety of (editorial) (Robicsek), 489
Aortoiliac system, hypoplastic, atherosclerosis and (DeLaurentis et al.), 27
Arrhythmias, cardiac, associated with treadmill claudication testing (Carroll et al.), 284
Arterial allografts, viable, maintenance of, by cryopreservation (Boren, Roon, and Moore), 382
embolization, selective, for control of traumatic pelvic hemorrhage (van Urk, Perlberger, and Muller), 133
micrografts, in vivo observations on (Reddy and Cliff), 392
oxygenation in morbidly obese subjects (letter) (Farebrother and McHardy), 365
plasma amino acids in patients with severe burns (Groves et al.), 139
thrombosis, recurrent, platelet function abnormalities in family with (O'Donnell et al.), 144
Arteriography, routine operative, during carotid endarterectomy: reassessment (Andersen, Collins, and Rich), 67
following carotid endarterectomy (editorial) (Blaisdell), 114
Artery(ies). *See* specific artery.
localization of injury in, by I-125 fibrinogen uptake (Fonkalsrud et al.), 338
Assistants, surgeon's, training and use of (Laws et al.), 445
Atherogenic potential of embolectomy catheter (Chidi and DePalma), 549
Atheromata, ulcerated, internal carotid back pressure, intraoperative shunting, and incidence of stroke during carotid endarterectomy (Hertzer et al.), 306
Atherosclerosis and hypoplastic aortoiliac system (DeLaurentis et al.), 27
Atresia, intestinal, dissection in search of (letter) (Mahour), 365; reply (Amoury, Ashcraft, and Holder), 365
Atrial catheterization, direct right, for total parenteral nutrition (Oram-Smith et al.), 274
Autogenous blood, augmentation of wound tensile strength in rats by induction of inflammation with (Myers and Rightor), 78
Autoleukocytotoxic activity, serum, and positive cross-match in potential allograft recipients (Etheredge and Anderson), 565
Autotransfusion, intraoperative, in elective and emergency vascular surgery (McKenzie et al.), 470
Autotransplantation, pancreatic, following resection (Hogle and Reemtsma), 359

B

Bile and pancreatic juice, contributions of, to cell proliferation in ileal mucosa (Williamson et al.), 570
ducts, spontaneous perforation of, in neonates (Fitzgerald, Parbhoo, and Guiney), 303
-salt–independent canalicular secretion, effect of insulin on (Snow and Jones), 458

*January, pp. 1-122; February, pp. 123-244; March, pp. 245-366; April, pp. 367-488; May, pp. 489-610; June, pp. 611-770.

Bile—Cont'd
pool size, gallbladder function and, in prairie dog model, effects of cholesterol gallstone induction on (Meyer, DenBesten, and Gurll), 599
Billroth advises Mikulicz (Schein and Koch), 431
Blood, autogenous, augmentation of wound tensile strength in rats by induction of inflammation with (Myers and Rightor), 78
flow, gastric, barrier breaker, and hydrogen ion back diffusion, interactions of, during ulcer formation in rat (Mersereau and Hinchey), 248
secretion and, effects of intra-arterial infusion of Prostaglandin E_1 on (Cheung and Lowry), 699
Blood, whole, albumin, Ringer's lactate, and crystalline hemoglobin, comparison of cardiorespiratory effects of, in resuscitation of hemorrhagic shock in dogs (Nees et al.), 639
Boots, external pneumatic compression, controlled, randomized trial of: prevention of deep vein thrombosis in neurosurgical patients (Skillman et al.), 354
low-dose heparin and, controlled, randomized trial of: prevention of deep vein thrombosis in urological patients (Coe et al.), 230
Bowel, small, intramural hematoma of: possible lethal complication of herniography (Butsch and Kuhn), 121
obstruction as complication of disseminated varicella-zoster infection (Chang et al.), 371
suppression, prophylactic antibiotic, in burn patients, clinical experience with (Jarrett et al.), 523
Branched-chain amino acids, role of, in decreasing muscle catabolism in vivo (Freund et al.), 611
Breast cancer in 3,558 women: age as significant determinant in rate of dying and causes of death (Mueller, Ames, and Anderson), 123
carcinoma, advanced, medical adrenalectomy and plasma steroids in (Newsome et al.), 82
Bruits, asymptomatic unilateral carotid, significance of (Evans and Cooperman), 521
Burns, severe, arterial plasma amino acids in patients with (Groves et al.), 139
Bypass, cardiopulmonary, development of regional myocardial ischemia distal to critical coronary stenosis during: comparison of fibrillating vs. beating nonworking states (Schaff et al.), 57
distal profunda femoris to popliteal, for patients with short length of long saphenous vein (Buxton, Reeves, and Roberts), 245
jejunoileal, for morbid obesity, hepatic collagen proline hydroxylase activity in hepatic disease following (Mezey and Imbembo), 345
small intestinal resection and, in rats, comparison of gastric responses to (Bowen et al.), 402
to popliteal, tibial, and peroneal arteries, evaluation of glutaraldehyde-tanned human umbilical cord vein as vascular prosthesis for (Dardik, Ibrahim, and Dardik), 577
Burn patients, clinical experience with prophylactic antibiotic bowel suppression in (Jarrett et al.), 523
Burned children, severely, clinical evaluation of administration of large volumes of plasma in treatment of (Bocanegra et al.), 558

C

Cadaver kidneys, pediatric, for transplantation (Kootstra et al.), 333
Canalicular secretion, bile-salt-independent, effect of insulin on (Snow and Jones), 458
Cancer, breast, in 3,558 women: age as significant determinant in rate of dying and causes of death (Mueller, Ames, and Anderson), 123
colorectal, circulating immune complexes in patients following clinically curative resection of (Steele et al.), 648
familial: implications for surgical management of high-risk patients (Lynch et al.), 104
Canine heart, effects of potassium cardioplegia and hypothermia on distribution of water and ions in (Mavroudis and Ebert), 476
Canine—Cont'd
veins, response of, to three types of abdominal surgery: scanning and electron microscopic study (Schaub, Lynch, and Stewart), 411
Carcinoma, advanced breast, medical adrenalectomy and plasma steroids in (Newsome et al.), 82
colorectal screening for, in rural area (Heeb and Ahlvin), 540
follicular, of thyroid with massive angioinvasion: extension of tumor thrombus to heart (Thompson et al.), 451
Cardiac arrhythmias associated with treadmill claudication testing (Carroll et al.), 284
output, depressed, mechanism of, on positive end-expiratory pressure (PEEP) (Liebman et al.), 594
Cardioplegia, potassium, and hypothermia, effects of, on distribution of water and ions in canine heart (Mavroudis and Ebert), 476
technique and experience using, during myocardial revascularization for preinfarction angina (Adams et al.), 12
Cardiopulmonary bypass, development of regional myocardial ischemia distal to critical coronary stenosis during: comparison of fibrillating vs. beating nonworking states (Schaff et al.), 57
total, in rhesus monkeys, preservation of platelet number and function with Prostaglandin E_1 during (Addonizio et al.), 619
Cardiovascular responses and left ventricular work during exercise, comparison of, before and after artificial heart implantation (Stanley et al.), 542
Carotid artery ligation, planned extra-anatomic cerebral revascularization for (Bole, Babu, and Clauss), 440
back pressure, internal, intraoperative shunting, ulcerated atheromata, and incidence of stroke during carotid endarterectomy (Hertzer et al.), 306
bruits, asymptomatic unilateral, significance of (Evans and Cooperman), 521
endarterectomy, internal carotid back pressure, intraoperative shunting, ulcerated atheromata, and incidence of stroke during (Hertzer et al.), 306
prevention of stroke by (Stanford, Lubow, and Vasko), 259
routine operative arteriography during: reassessment (Andersen, Collins, and Rich), 67
following (editorial) (Blaisdell), 114
Cat, concentrations of gastrin and secretin in alimentary tract of (Miller et al.), 90
Catheter, embolectomy, atherogenic potential of (Chidi and DePalma), 549
Catheterization, direct right atrial, for total parenteral nutrition (Oram-Smith et al.), 274
Cell-mediated immunity to donor antigens in renal allograft recipients (Burrows et al.), 741
proliferation, contributions of bile and pancreatic juice to, in ileal mucosa (Williamson et al.), 570
specificity of antibody response accompanying human renal allograft rejection, analysis of (Cerilli, Holliday, and Koolemans-Beynen), 726
Cellular edema, measurement of, in anoxia and its prevention by hyperosmolar solutions (Lambotte and Wojcik), 94
Cerebral hypoxemic perfusion, two models of (letter) (Moss), 488
revascularization, planned extra-anatomic, for carotid artery ligation (Bole, Babu and Clauss), 440
Children, severely burned, clinical evaluation of administration of large volumes of plasma in treatment of (Bocanegra et al.), 558
Choledochoduodenostomy vs. choledochojejunostomy (letter) (Ky), 366
Choledochojejunostomy, choledochoduodenostomy vs. (letter) (Ky), 366
Cholesterol gallstone induction, effects of, on gallbladder function and bile salt pool size in priarie dog model (Meyer, Denbesten, and Gurll), 599
Claudication testing, treadmill, cardiac arrhythmias associated with (Carroll et al.), 284
Collagen proline hydroxylase activity, hepatic, in hepatic disease following jejunoileal bypass for morbid obesity (Mezey and Imbembo), 345
Collagenase, granulocyte, and elastase and plasma protease inhibitors in human pus (Delshammar and Ohlsson), 323

Colorectal cancer, circulating immune complexes in patients following clinically curative resection of (Steele et al.), 648
carcinoma, screening for, in rural area (Heeb and Ahlvin), 540
Computer-assisted instruction in surgery (Halverson and Ballinger), 633
Continent reservoir ileostomy: review of collective series of thirty-six patients from three surgical departments (Halvorsen et al.), 252
Cord vein, human umbilical, glutaraldehyde-tanned, evaluation of, as vascular prosthesis for bypass to popliteal, tibial, and peroneal arteries (Dardik, Ibrahim, and Dardik), 577
Coronary artery surgery, impact of multiple variables on operative and extended survival following (Jones et al.), 20
Cryopreservation, maintenance of viable arterial allografts by (Boren, Roon, and Moore), 382
Cysts, parathyroid: report of case with ultrastructural observations (Troster, Chiu, and McLarty), 238
Cytotoxic, immunosuppressive or, therapy, malignancies associated with (Penn), 492

D

Deep vein thrombosis, prevention of (editorial) (Blaisdell), 243
in neurosurgical patients: controlled, randomized trial of external pneumatic compression boots (Skillman et al.), 354
in urlogical patients: controlled, randomized trial of low-dose heparin and external pneumatic compression boots (Coe et al.), 230
Diastolic properties of left ventricle in conscious dog, effect of hemorrhagic shock on (Alyono, Ring, and Anderson), 691
Dissection in search of intestinal atresia (letter) (Mahour), 365; reply (Amoury, Ashcraft, and Holder), 365
Distal profunda femoris to popliteal bypass for patients with short length of long saphenous vein (Buxton, Reeves, and Roberts), 245
Dog(s), comparison of cardiorespiratory effects of crystalline hemoglobin, whole blood, albumin, and Ringer's lactate in resuscitation of hemorrhagic shock in (Nees et al.), 639
conscious, effects of hemorrhagic shock on diastolic properties of left ventricle in (Alyono, Ring, and Anderson), 691
Doppler ultrasound, determination of viability of ischemic intestine by (Cooperman et al.), 705
Ducts, bile, spontaneous perforation of, in neonates (Fitzgerald, Parbhoo, and Guiney), 303

E

Edema, cellular, measurement of, in anoxia and its prevention by hyperosmolar solutions (Lambotte and Wojcik), 94
Education, medical, goals of (letter) (Fost), 753; reply (Fonkalsrud), 753
Effusion, uremic pericardial, management of (letter) (Spodick), 609
Elastase, granulocyte collagenase and, and plasma protease inhibitors in human pus (Delshammar and Ohlsson), 323
Electron microscopic study, scanning and transmission: response of canine veins to three types of abdominal surgery (Schaub, Lynch, and Stewart), 411
microscopy, ST segment mapping, and reduced nicotamide adenine dinucleotide fluorescence photography, display of epicardial ischemia by (Harden et al.), 732
Embolectomy catheter, atherogenic potential of (Chidi and DePalma), 549
Emboli, sized, entrapment of, by KMA-Greenfield intracaval filter (Schroeder, Elkins, and Greenfield), 435
Embolization, selective arterial, for control of traumatic pelvic hemorrhage (van Urk, Perlberger, and Muller), 133
End-expiratory pressure, positive (PEEP), mechanism of depressed cardiac output on (Liebman et al.), 594
withdrawal from (Luterman et al.), 328
Endarterectomy, carotid, internal carotid back pressure, intraoperative shunting, ulcerated atheromata, and incidence of stroke during (Hertzer et al.), 306
prevention of stroke by (Stanford, Lubow, and Vasko), 259
Endarterectomy carotid—Cont'd
routine operative arteriography during: reassessment (Andersen, Collins, and Rich), 67
following (editorial) (Blaisdell), 114
common femoral, and profundaplasty in patients with superficial femoral occlusion, objective assessment of (Fernandes e Fernandes et al.), 313
Endocrine, exocrine and, pancreatic function in rat, effect of synthetic analogue of PGE_2 on (Dodi, Santoro, and Jaffe), 206
Endogenous norepinephrine, neuronal uptake of: determinant of splenic but not renal vascular resistance following hemorrhage (Badder et al.), 214
Exercise, comparison of cardiovascular responses and left ventricular work during, before and after artificial heart implantation (Stanley et al.), 542
Exocrine and endocrine pancreatic function in rat, effect of synthetic analogue of PGE_2 on (Dodi, Santoro, and Jaffe), 206

F

Familial cancer: implications for surgical management of high-risk patients (Lynch et al.), 104
Femoral endarterectomy, common, and profundaplasty in patients with superficial femoral occlusion, objective assessment of (Fernandes e Fernandes et al.), 313
occlusion, superficial, objective assessment of common femoral endarterectomy and profundaplasty in patients with (Fernandes e Fernandes et al.), 313
Femoris, distal profunda, to popliteal bypass for patients with short length of long saphenous vein (Buxton, Reeves, and Roberts), 245
Few, too, too soon (letter) (Salzman and Skillman), 752
Fibrinogen, I-125, uptake, localization of injury in arteries by (Fonkalsrud et al.), 338
Filter, KMA-Greenfield intracaval, entrapment of sized emboli by (Schroeder, Elkins, and Greenfield), 435
Follicular carcinoma of thyroid with massive angioinvasion: extension of tumor thrombus to heart (Thompson et al.), 451

G

Gallbladder function and bile salt pool size in prairie dog model, effects of cholesterol gallstone induction on (Meyer, DenBesten, and Gurll), 599
Gallstone, cholesterol, induction, effects of, on gallbladder function and bile salt pool size in prairie dog model (Meyer, DenBesten, and Gurll), 599
pancreatitis, acute, early surgery for: evaluation of systematic approach (Acosta et al.), 367
Gastric blood flow, barrier breaker, and hydrogen ion back diffusion, interactions of, during ulcer formation in rat (Mersereau and Hinchey), 248
mucosal permeability and gastric acid secretion before and after hemodialysis in patients with chronic renal failure (Shapira et al.), 528
responses to small intestinal resection and bypass in rats, comparison of (Bowen et al.), 402
Gastrin and secretin, concentrations of, in alimentary tract of cat (Miller et al.), 90
secretion and blood flow, effects of intra-arterial infusion of Prostaglandin E_1 on (Cheung and Lowry), 699
Gastrin, luminal, physiological role for? (Fiddian-Green et al.), 663
release, influence of vagus on mechanisms for stimulation and inhibition of gastrin release (Schafmayer et al.), 711
Gastroschisis, not omphalocele (letter) (Shaw), 752
Glutaraldehyde-tanned human umbilical cord vein, evaluation of, as vascular prosthesis for bypass to popliteal, tibial, and peroneal arteries (Dardik, Ibrahim, and Dardik), 577
Graft interposition splenocaval shunt for total or selective decompression of portal hypertension (Guharay et al.), 164
Granulocyte collagenase and elastase and plasma protease inhibitors in human pus (Delshammar and Ohlsson), 323
Gravis, myasthenia, immunological studies on: operative indication and cell-mediated immunity (Fukawa et al.), 293

Greenfield, KMA-, intracaval filter, entrapment of sized emboli by (Schroeder, Elkins, and Greenfield), 435

H

Hand ischemia, severe, systematic approach to (McNamara et al.), 1
Heart, artificial, implantation, comparison of cardiovascular responses and left ventricular work during exercise before and after (Stanley et al.), 542
canine, effects of potassium cardioplegia and hypothermia on distribution of water and ions in (Mavroudis and Ebert), 476
extension of tumor thrombus to: follicular carcinoma of thyroid with massive angioinvasion (Thompson et al.), 451
Hematogenous infection of total knee implants (Marmor and Berkus), 291
Hematoma, intramural, of small bowel: possible lethal complication of herniography (Butsch and Kuhn), 121
Hemodialysis, gastric mucosal permeability and gastric acid secretion before and after, in patients with chronic renal failure (Shapira et al.), 528
Hemoglobin, crystalline, whole blood, albumin, and Ringer's lactate, comparison of cardiorespiratory effects of, in resuscitation of hemorrhagic shock in dogs (Nees et al.), 639
mechanisms of adjuvant effect of of, in experimental peritonitis. I. In vivo inhibition of peritneal leukocytosis (Hau, Hoffman, and Simmons), 223
Hemorrhage, determinant of splenic but not renal vascular resistance following: neuronal uptake of endogenous norepinephrine (Badder et al.), 214
traumatic pelvic, selective arterial embolization for control of (van Urk, Perlberger, and Muller), 133
Hemorrhagic shock, effect of, on pulmonary vascular permeability to plasma proteins (Northrup and Humphrey), 264
Heparin, low-dose, and external pneumatic compression boots, controlled, randomized trial of: prevention of deep vein thrombosis in urological patients (Coe et al.), 230
Hepatic artery, preoperative occlusion of, with isobutyl 2-cyanoacrylate for resection of "unresectable" hepatic tumor (Shermeta, Golladay, and White), 319
collagen proline hydroxylase activity in hepatic disease following jejunoileal bypass for morbid obesity (Mezey and Imbembo), 345
tumor, preoperative occlusion of, with isobutyl 2-cyanoacrylate for resection of "unresectable" hepatic tumor (Shermeta, Golladay, and White), 319
Hernias, lateral ventral (spigelian) in infants and children (Graivier, Bernstein, and RuBane), 288
Herniograms—a commentary (editorial) (Leape), 361
Herniography—a perspective (editorial) (White), 363
possible lethal complication of: intramural hematoma of small bowel (Butsch and Kuhn), 121
Human umbilical cord vein, glutaraldehyde-tanned, evaluation of, as vascular prosthesis for bypass to popliteal, tibial, and peroneal arteries (Dardik, Ibrahim, and Dardik), 577
Hydrogen ion back diffusion, gastric blood flow, and barrier breaker, interactions of, during ulcer formation in rat (Mersereau and Hinchey), 248
Hypercalcemia and hypercalcitonemia in rats, iodine deficiency produces (Clark et al.), 626
Hypercalcitonemia and hypercalcemia in rats, iodine deficiency produces (Clark et al.), 626
Hyperosmolar solutions, measurement of cellular edema in anoxia and its prevention by (Lambotte and Wojcik), 94
Hyperparathyroidism, persistent, reoperative parathyroid surgery for (Brennan et al.), 669
Hypertension, renovascular, following surgical repair of dissecting aneurysm of thoracic aorta (Rose et al.), 235
Hypoplastic aortoiliac system, atherosclerosis and (DeLaurentis et al.), 27
Hypothermia, potassium cardioplegia and, effects of, on distribution of water and ions in canine heart (Mavroudis and Ebert), 476
Hypothermic pulsatile perfusion, renal injury by companion kidney during (Anderson et al.), 72
Hypoxemic perfusion, cerebral, two models of (letter) (Moss), 488

I

I-125 fibrinogen uptake, localization of injury in arteries by (Fonkalsrud et al.), 338
Ileal mucosa, contributions of bile and pancreatic juice to cell proliferation in (Williamson et al.), 570
Ileostomy, continent reservoir: review of collective series of thirty-six patients from three surgical departments (Halvorsen et al.), 252
Iliac vein, reconstruction of: case report and discussion (Tyson and Mutchnick), 589
Immune complexes, circulating, in patients following clinically curative resection of colorectal cancer (Steele et al.), 648
Immunological studies on myasthenia gravis: operative indication and cell-mediated immunity (Fukawa et al.), 293
Immunosuppressive or cytotoxic therapy, malignancies associated with (Penn), 492
Implants, total knee, hematogenous infection of (Marmor and Berkus), 291
Infection, late and remote—yet another threat to the successful prosthesis (editorial) (Polk), 491
Inferior vena caval obstruction, ruptured abdominal aortic aneurysm presenting as (Gertner, Hargrove, and Roberts), 605
Inflammatory aneurysms of abdominal aorta (Goldstone, Malone, and Moore), 425
Instruction, computer-assisted, in surgery (Halverson and Ballinger), 633
Insulin, effect of, on bile-salt-independent canalicular secretion (Snow and Jones), 458
-releasing activity and successful transplantation of pancreatic islets preserved by tissue culture (Nakagawara et al.), 188
Intestinal atresia, dissection in search of (letter), (Mahour), 365; reply (Amoury, Ashcraft, and Holder), 365
resection, small, and bypass in rats, comparison of gastric responses to (Bowen et al.), 402
Intestine, ischemic, determination of viability of, by Doppler ultrasound (Cooperman et al.), 705
Intracaval filter, KMA-Greenfield, entrapment of sized emboli by (Schroeder, Elkins, and Greenfield), 435
Iodine deficiency produces hypercalcemia and hypercalcitonemia in rats (Clark et al.), 626
Ion, hydrogen, back diffusion, gastric blood flow, and barrier breaker, interactions of, during ulcer formation in rat (Mersereau and Hinchey), 248
Ischemia, epicardial, display of, by reduced nicotamide adenine dinucleotide fluorescence photography, electron microscopy, and ST segment mapping (Harden et al.), 732
hepatic, improved hepatic function and survival with adenosine triphosphate–magnesium chloride after (Hirasawa, Chaudry, and Baue), 655
regional myocardial, development of, distal to critical coronary stenosis during cardiopulmonary bypass: comparison of fibrillating vs. beating nonworking states (Schaff et al.), 57
severe hand, systematic approach to (McNamara et al.), 1
warm, effect of adenosine and allopurinol on tolerance of collapsed lung to (Hau et al.), 406
Ischemic intestine, determination of viability of, by Doppler ultrasound (Cooperman et al.), 705
Islets, pancreatic, preserved by tissue culture, insulin-releasing activity and successful transplantation of (Nakagawara et al.), 188
Isobutyl 2-cyanoacrylate, preoperative occlusion of hepatic artery with, for resection of "unresectable" hepatic tumor (Shermeta, Golladay, and White), 319

J

Jejunoileal bypass for morbid obesity, hepatic collagen proline hydroxylase acitivity in hepatic disease following (Mezey and Imbembo), 345

K

Kidney(s), cadaver, pediatric, for transplantation (Kootstra et al.), 333
companion, renal injury by, during hypothermic pulsatile perfusion (Anderson et al.), 72
KMA-Greenfield intracaval filter, entrapment of sized emboli by (Schroeder, Elkins, and Greenfield), 435
Knee implants, total, hematogenous infection of (Marmor and Berkus), 291

L

Lateral ventral (spigelian) hernias in infants and children (Graivier, Bernstein, and RuBane), 288
Left renal vein, division of: safe surgical adjunct (James et al.), 151
Leukocyte, platelet and, lung interactions in patients with respiratory failure (Hechtman, Lonergan, and Shepro), 155
Leukocytosis, peritoneal, in vivo inhibition of (I). Mechanisms of adjuvant effect of hemoglobin in experimental peritonitis (Hau, Hoffman, and Simmons), 223
LeVeen valve, effect of peritoneovenous shunting with, on ascites, renal function, and coagulation in six patients with intractable ascites, 181
Ligation, carotid artery, planned extra-anatomic cerebral revascularization for (Bole, Babu, and Clauss), 440
Lipomatosis, pelvic (Old and Stokes), 173
Liver abscess, amebic, results of surgery in: experiences in eighty-three patients (Eggleston et al.), 536
Lumbar aortography, safety of (editorial) (Robicsek), 489
Luminal gastrin, physiological role for? (Fiddian-Green et al.), 663
Lung, collapsed, effect of adenosine and allopurinol on tolerance of, to warm ischemia (Hau et al.), 406
interactions, platelet and leukocyte, in patients with respiratory failure (Hechtman, Lonergan, and Shepro), 155

M

Magnesium chloride–adenosine triphosphate, improved hepatic function and survival with, after hepatic ischemia (Hirasawa, Chaudry, and Baue), 655
Malignancies associated with immunosuppressive or cytotoxic therapy (Penn), 492
Malignant melanoma, "high risk" primary, randomized trial of adjuvant therapy for (Wood et al.), 677
Manpower, surgical, and public policy. Manpower update, GMENAC committee, Public Law 94-484, and query on federal enforcement of medical manpower policy (editorial) (Moore, Zuidema, and Ballinger), 116
Mastectomy, preanesthetic: patient's experience (Moore), 200
Medical education, goals of (letter) (Fost), 753; reply (Fonkalsrud), 753
Melanoma, "high risk" primary malignant, randomized trial of adjuvant therapy for (Wood et al.), 677
Mesenteric arterial occlusion, acute superior: plea for early diagnosis (Krausz and Manny), 482
Metastases, pulmonary, thiopental and (letter) (Boba), 610
Micrografts, arterial, in vivo observations on (Reddy and Cliff), 392
Microcirculation, pulmonary, effect of major thermal injury on (Demling, Will, and Belzer), 746
Microscopic study, scanning and transmission electron: response of canine veins to three types of abdominal surgery (Schaub, Lynch, and Stewart), 411
Mikulicz, Billroth advises (Schein and Koch), 431
Monkeys, rhesus, preservation of platelet number and function with Prostaglandin E_1 during total cardiopulmonary bypass in (Addonizio et al.), 619
Mucosa, ileal, contributions of bile and pancreatic juice to cell proliferation in (Williamson et al.), 570
Mucosal permeability, gastric, and gastric acid secretion before and after hemodialysis in patients with chronic renal failure (Shapira et al.), 528
Muscle catabolism, decreasing, in vivo, role of branched-chain amino acids in (Freund et al.), 611
Myasthenia gravis, immunological studies on: operative indication and cell-mediated immunity (Fukawa et al.), 293

N

Neck exploration, parathyroid, "conservative" versus "liberal" approach to (letter) (Johansson, Thorén and Åkerström), 752
Neonates, spontaneous perforation of bile ducts in (Fitzgerald, Parbhoo, and Guiney), 303
Nervous system, sympathetic, role of, in peptic ulcer production in rats (Moraes et al.), 194
Neuronal uptake of endogenous norepinephrine: determinant of splenic but not renal vascular resistance following hemorrhage (Badder et al.), 214
Neurosurgical patients, prevention of deep vein thrombosis in: controlled, randomized trial of external pneumatic compression boots (Skillman et al.), 354
Nicotamide adenine dinucleotide fluorescence photography, reduced, electron microscopy, and ST segment mapping, display of epicardial ischemia by (Harden et al.), 732
Norepinephrine, endogenous, neuronal uptake of: determinant of splenic but not renal vascular resistance following hemorrhage (Badder et al.), 214
Nutrition, total parenteral (Ota, Imbembo, and Zuidema), 503
direct right atrial catheterization for (Oram-Smith et al.), 274

O

Obese subjects, morbidly, arterial oxygenation in (letter) (Farebrother and McHardy), 365
Obesity, morbid, hepatic collagen proline hydroxylase activity in hepatic disease following jejunoileal bypass for (Mezey and Imbembo), 345
Occlusion, acute superior mesenteric arterial: plea for early diagnosis (Krausz and Manny), 482
Omphalocele, not gastroschisis (letter) (Shaw), 752
Output, depressed cardiac, mechanism of, on positive end-expiratory pressure (PEEP) (Liebman et al.), 594
Oxygenation, arterial, in morbidly obese subjects (letter) (Farebrother and McHardy), 365

P

Pancreatic autotransplantation following resection (Hogle and Reemtsma), 359
function, exocrine and endocrine, in rat, effect of synthetic analogue of PGE_2 on (Dodi, Santoro, and Jaffe), 206
islets preserved by tissue culture, insulin-releasing activity and successful transplantation of (Nakagawara et al.), 188
juice, bile and, contributions of, to cell proliferation in ileal mucosa (Williamson et al.), 570
Pancreatitis, acute gallstone, early surgery for: evaluation of systematic approach (Acosta et al.), 367
Parathyroid cysts: report of case with ultrastructural observations (Troster, Chiu, and McLarty), 238
neck exploration, "conservative" versus "liberal" approach to (letter) (Johansson, Thorén, and Åkerström), 752
surgery, reoperative, for persistent hyperparathyroidism (Brennan et al.), 669
Parenteral nutrition, total (Ota, Imbembo, and Zuidema), 503
direct right atrial catheterization for (Oram-Smith et al.), 274
Pediatric cadaver kidneys for transplantation (Kootstra et al.), 333
(PEEP) positive end-expiratory pressure, mechanism of depressed cardiac output on (Liebman et al.), 594
Pelvic hemorrhage, traumatic, selective arterial embolization for control of (van Urk, Perlberger, and Muller), 133
lipomatosis (Old and Stokes), 173
Peptic ulcer production in rats, role of sympathetic nervous system in (Moraes et al.), 194
Perfusion, cerebral hypoxemic, two models of (letter) (Moss), 488
hypothermic pulsatile, renal injury by companion kidney during (Anderson et al.), 72
Pericardial effusion, uremic, management of (letter) (Spodick), 609
Pericarditis, uremic, more on (letter) (Connors), 609
Peritoneal leukocytosis, in vivo inhibition of (I). Mechanisms of adjuvant effect of hemoglobin in experimental peritonitis (Hau, Hoffman, and Simmons), 223

Peritoneovenous shunting, effect of, with LeVeen valve on ascites, renal failure, and coagulation in six patients with intractable ascites (Ansley et al.), 181
Peritonitis, experimental, evaluation of zymosan-induced resistance to (Joyce et al.) 717
mechanisms of adjuvant effect of hemoglobin in. I. In vivo inhibition of peritoneal leukocytosis (Hau, Hoffman, and Simmons), 223
Peroneal, popliteal, and tibial arteries, evaluation of glutaraldehyde-tanned human umbilical cord vein as vascular prosthesis for bypass to (Dardik, Ibrahim, and Dardik), 577
PGE_2, effect of synthetic analogue of, on exocrine and endocrine pancreatic function in rat (Dodi, Santoro, and Jaffe), 206
Photography, reduced nicotamide adenine dinucleotide fluorescence, electron microscopy, and ST segment mapping, display of epicardial ischemia by (Harden et al.), 732
Physiological role for luminal gastrin? (Fiddian-Green et al.), 663
Plasma, arterial, plasma amino acids in patients with severe burns (Groves et al.), 139
large volumes of, clinical evaluation of administration of, in treatment of severely burned children (Bocanegra et al.), 558
protease inhibitors, granulocyte collagenase and elastase and, in human pus (Delshammar and Ohlsson), 323
proteins, effect of hemorrhagic shock on pulmonary vascular permeability to (Northrup and Humphrey), 264
steroids, medical adrenalectomy and, in advanced breast carcinoma (Newsome et al.), 82
Platelet(s) and leukocyte lung interactions in patients with respiratory failure (Hechtman, Lonergan, and Shepro), 155
function abnormalities in family with recurrent arterial thrombosis (O'Donnell et al.), 144
pulmonary entrapment of, during acute respiratory failure (Hechtman et al.), 277
Pneumatic compression boots, external, controlled, randomized trial of: prevention of deep vein thrombosis in neurosurgical patients (Skillman et al.), 354
low-dose heparin and, controlled, randomized trial of: prevention of deep vein thrombosis in urological patients (Coe et al.), 230
Policy, public, surgical manpower and. Manpower update, GMENAC committee, Public Law 94-484, and query on federal enforcement of medical manpower policy (editorial) (Moore, Zuidema, and Ballinger), 116
Popliteal bypass, distal profunda femoris to, for patients with short length of long saphenous vein (Buxton, Reeves, and Roberts), 245
tibial, and peroneal arteries, evaluation of glutaraldehyde-tanned human umbilical cord vein as vascular prosthesis for bypass to (Dardik, Ibrahim, and Dardik), 577
Positive end-expiratory pressure (PEEP), mechanism of depressed cardiac output on (Liebman et al.), 594
withdrawal from (Luterman et al.), 328
Potassium cardioplegia and hypothermia, effects of, on distribution of water and ions in canine heart (Mavroudis and Ebert), 476
technique and experience using, during myocardial revascularization for preinfarction angina (Adams et al.), 12
Prairie dog model, effects of cholesterol gallstone induction on gallbladder function and bile salt pool size in (Meyer, DenBesten, and Gurll), 599
Preanesthetic mastectomy: patient's experience (Moore), 200
Primary malignant melanoma, "high risk," randomized trial of adjuvant therapy for (Wood et al.), 677
Profundaplasty, common femoral endarterectomy and, in patients with superficial femoral occlusion, objective assessment of (Fernandes e Fernandes et al.), 313
Prostaglandin E_1, effects of intra-arterial infusion of, on gastric secretion and blood flow (Cheung and Lowry), 699
Prostaglandin E_1, preservation of platelet number and function with, during total cardiopulmonary bypass in rhesus monkeys (Addonizio et al.), 619
Prosthesis, successful—late and remote infection, yet another threat to (editorial) (Polk), 491
Protease, plasma, inhibitors, granulocyte collagenase and elastase and, in human pus (Delshammar and Ohlsson), 323
Proteins, plasma, effect of hemorrhagic shock on pulmonary vascular permeability to (Northrup and Humphrey), 264
Public policy, surgical manpower and. Manpower update, GMENAC committee, Public Law 94-484, and query on federal enforcement of medical manpower policy (editorial) (Moore, Zuidema, and Ballinger), 116
Pulmonary entrapment of platelets during acute respiratory failure (Hechtman et al.), 277
metastases, thiopental and (letter) (Boba), 610
microcirculation, effect of major thermal injury on (Demling, Will, and Belzer), 746
vascular permeability to plasma proteins, effect of hemorrhagic shock on (Northrup and Humphrey), 264
Pulsatile perfusion, hypothermic, renal injury by companion kidney during (Anderson et al.), 72
Pus, human, granulocyte collagenase and elastase and plasma protease inhibitors in (Delshammar and Ohlsson), 323

R

Rat(s), comparison of gastric responses to small intestinal resection and bypass in (Bowen et al.), 402
effect of synthetic analogue of PGE_2 on exocrine and endocrine pancreatic function in (Dodi, Santoro, and Jaffe), 206
interactions of gastric blood flow, barrier breaker, and hydrogen ion back diffusion during ulcer formation in (Mersereau and Hinchey), 248
iodine deficiency produces hypercalcemia and hypercalcitonemia in (Clark et al.), 626
role of sympathetic nervous system in peptic ulcer production in (Moraes et al.), 194
Renal allograft recipients, cell-mediated immunity to donor antigens in (Burrows et al.), 741
rejection, human, analysis of cell specificity of antibody response accompanying (Cerilli, Holliday, and Koolemans-Beynen), 726
Renal failure, chronic, gastric mucosal permeability and gastric acid secretion before and after hemodialysis in patients with (Shapira et al.), 528
injury by companion kidney during hypothermic pulsatile perfusion (Anderson et al.), 72
vein, left, division of: safe surgical adjunct (James et al.), 151
Renovascular hypertension following surgical repair of dissecting aneurysm of thoracic aorta (Rose et al.), 235
Resection, pancreatic autotransplantation following (Hogle and Reemtsma), 359
small intestinal, and bypass in rats, comparison of gastric responses to (Bowen et al.), 402
Reservoir ileostomy, continent: review of collective series of thirty-six patients from three surgical departments (Halvorsen et al.), 252
Respiratory failure, acute, pulmonary entrapment of platelets during (Hechtman et al.), 277
Revascularization, myocardial, for preinfarction angina, technique and experience using potassium cardioplegia during (Adams et al.), 12
planned extra-anatomic cerebral, for carotid artery ligation (Bole, Babu, and Clauss), 440
Rhesus monkeys, preservation of platelet number and function with Prostaglandin E_1 during total cardiopulmonary bypass in (Addonizio et al.), 619
Ringer's lactate, crystalline hemoglobin, whole blood, and albumin, comparison of cardiorespiratory effect of, in resuscitation of hemorrhagic shock in dogs (Nees et al.), 639
Rural area, screening for colorectal carcinoma in (Heeb and Ahlvin), 540

S

Saphenous vein, long, distal profunda femoris to popliteal bypass for patients with a short length of (Buxton, Reeves, and Roberts), 245

Secretin, gastrin and, concentrations of, in alimentary tract of cat (Miller et al.), 90
Serum autoleukocytotoxic activity and positive cross-match in potential allograft recipients (Etheredge and Anderson), 565
Shock, hemorrhagic, effect of, on diastolic properties of left ventricle in conscious dog (Alyono, Ring, and Anderson), 691
on pulmonary vascular permeability to plasma proteins (Northrup and Humphrey), 264
Shunt, graft interposition splenocaval, for total or selective decompression of portal hypertension (Guharay et al.), 164
splenocaval, graft interposition, for total or selective decompression of portal hypertension (Guharay et al.), 164
Shunting, intraoperative, internal carotid back pressure, ulcerated atheromata, and incidence of stroke during carotid endarterectomy (Hertzer et al.), 306
peritoneovenous, effect of, with LeVeen valve on ascites, renal function, and coagulation in six patients with intractable ascites (Ansley et al.), 181
Small bowel, intramural hematoma of: possible lethal complication of herniography (Butsch and Kuhn), 121
intestinal resection and bypass in rats, comparison of gastric responses to (Bowen et al.), 402
Soon, too, too few (letter) (Salzman and Skillman), 752
Spinal cord damage in surgery of abdominal aorta (Szilagyi et al.), 38
(Spigelian) hernias, lateral ventral, in infants and children (Graivier, Bernstein, and RuBane), 288
Splenocaval shunt, graft interposition, for total or selective decompression of portal hypertension (Guharay et al.), 164
ST segment mapping, reduced nicotamide adenine dinucleotide fluorescence photography, and electron microscopy, display of epicardial ischemia by (Harden et al.), 732
Stenosis, critical coronary, development of regional myocardial ischemia distal to, during cardiopulmonary bypass: comparison of fibrillating vs. beating nonworking states (Schaff et al.), 57
Steroids, plasma, medical adrenalectomy and, in advanced breast carcinoma (Newsome et al.), 82
Stroke, incidence of, internal carotid back pressure, intraoperative shunting, and ulcerated atheromata during carotid endarterectomy (Hertzer et al.), 306
prevention of, by carotid endarterectomy (Stanford, Lubow, and Vasko), 259
Surgeon's assistants, training and use of (Laws et al.), 445
Surgery, computer-assisted instruction in (Halverson and Ballinger), 633
in Utah, giving and getting: urban-rural comparison (Kane et al.), 375
Surgical manpower and public policy. Manpower update, GMENAC committee, Public Law 94-484, and query on federal enforcement of medical manpower policy (editorial) (Moore, Zuidema, and Ballinger), 116
Sympathetic nervous system, role of, in peptic ulcer production in rats (Moraes et al.), 194

T

Tensile strength, wound, in rats, augmentation of, by induction of inflammation with autogenous blood (Myers and Rightor), 78
Thermal injury, major, effect of, on pulmonary microcirculation (Demling, Will, and Belzer), 746
Thiopental and pulmonary metastases (letter) (Boba), 610
Thoracic aorta, dissecting aneurysm of, renovascular hypertension following surgical repair of (Rose et al.), 235
Thrombosis, deep vein, prevention of (editorial) (Blaisdell), 243
in neurosurgical patients: controlled, randomized trial of external pneumatic compression boots (Skillman et al.), 354
in urological patients: controlled, randomized trial of low-dose heparin and external pneumatic compression boots (Coe et al.), 230
Thrombosis, deep vein—Cont'd
recurrent arterial, platelet function abnormalities in family with (O'Donnell et al.), 144
Thrombus, tumor, extension of, to heart: follicular carcinoma of thyroid with massive angioinvasion (Thompson et al.), 451
Thyroid, follicular carcinoma of, with massive angioinvasion: extension of tumor thrombus to heart (Thompson et al.), 451
Tibial, peroneal, and popliteal arteries, evaluation of glutaraldehyde-tanned human umbilical cord vein as vascular prosthesis for bypass to (Dardik, Ibrahim, and Dardik), 577
Total parenteral nutrition (Ota, Imbembo, and Zuidema), 503
direct right atrial catheterization for (Oram-Smith et al.), 274
Transfusion therapy, adverse effects of, during abdominal aortic aneurysectomy (Weisel et al.), 682
Transplantation, pediatric cadaver kidneys for (Kootstra et al.), 333
successful, insulin-releasing activity and, of pancreatic islets preserved by tissue culture (Nakagawara et al.), 188
Treadmill claudication testing, cardiac arrhythmias associated with (Carroll et al.), 284
Tumor, hepatic, preoperative occlusion of, with isobutyl 2-cyanoacrylate for resection of "unresectable" hepatic tumor (Shermeta, Golladay, and White), 319
thrombus, extension of, to heart: follicular carcinoma of thyroid with massive angioinvasion (Thompson et al.), 451

U

Ulcer formation in rat, interactions of gastric blood flow, barrier breaker, and hydrogen ion back diffusion during (Mersereau and Hinchey), 248
peptic, production in rats, role of sympathetic nervous system in (Moraes et al.), 194
Ultrasound, Doppler, determination of viability of ischemic intestine by (Cooperman et al.), 705
Umbilical cord vein, human, glutaraldehyde-tanned, evaluation of, as vascular prosthesis for bypass to popliteal, tibial, and peroneal arteries (Dardik, Ibrahim, and Dardik), 577
Uremic pericardial effusion, management of (letter) (Spodick), 609
pericarditis, more on (letter) (Connors), 609
Ureteral pathology associated with aortic surgery: report of three unusual cases (Henry and Bernhard), 464
Urological patients, prevention of deep vein thrombosis in: controlled, randomized trial of low-dose heparin and external pneumatic compression boots (Coe et al.), 230
Utah, giving and getting surgery in: urban-rural comparison (Kane et al.), 375

V

Vagus, influence of, on mechanisms for stimulation and inhibition of gastrin release (Schafmayer et al.), 711
Valve, LeVeen, effect of peritoneovenous shunting with, on ascites, renal function, and coagulation in six patients with intractable ascites, 181
Varicella-zoster infection, disseminated, complication of (editorial) (Simmons and Balfour), 486
small bowel obstruction as complication of (Chang et al.), 371
Vascular, pulmonary, permeability, to plasma proteins, effect of hemorrhagic shock on (Northrup and Humphrey), 264
surgery, elective and emergency, intraoperative autotransfusion in (McKenzie et al.), 470
Vein(s). *See* specific vein.
canine, response of, to three types of abdominal surgery: scanning and electron microscopic study (Schaub, Lynch, and Stewart), 411

Vein—Cont'd
thrombosis, deep, prevention of (editorial) (Blaisdell), 243
in neurosurgical patients: controlled, randomized trial of external pneumatic compression boots (Skillman et al.), 354
in urological patients: controlled, randomized trial of low-dose heparin and external pneumatic compression boots (Coe et al.), 230
Ventral (spigelian) hernias, lateral, in infants and children (Graivier, Bernstein, and RuBane), 288
Ventricle, left, in conscious dog, effects of hemorrhagic shock on diastolic properties of (Alyono, Ring, and Anderson), 691
Ventricular work, left, cardiovascular responses and, during exercise, comparison of, before and after artificial heart implantation (Stanley et al.), 542

W

Wound tensile strength in rats, augmentation of, by induction of inflammation with autogenous blood (Myers and Rightor), 78

Z

Zoster, varicella-, infection, disseminated, complication of (editorial) (Simmons and Balfour), 486
small bowel obstruction as complication of (Chang et al.), 371
Zymosan-induced resistance to experimental peritonitis, evaluation of (Joyce et al.), 717

SUBJECT INDEX*

A

Abdominal aortic aneurysm, inoperable, induced thrombosis of (Berguer, Schneider, and Wilner), 425
Abscess, intraperitoneal, accuracy of techniques to detect (Norton, Eule, and Burdick), 370
  occult splenic: unrecognized complication of heroin abuse (Fry et al.), 650
Adenoma, islet-cell, surgical management of, in infancy (Rich et al.), 519
Alcoholic cirrhosis, hepatic metabolism in patients with (Reichle et al.), 33
Amikacin, necessity of increased doses of, in burn patients (Zaske, Sawchuk, and Strate), 603
Amino acid, essential, for injured rats: arginine (Seifter et al.), 224
Anemia, acute, and coronary stenosis, response of hypertrophied heart to (Anderson et al.), 8
Aneurysm of abdominal aorta, aortocaval fistula associated with: current management using autotransfusion techniques (Doty et al.), 250
  aortic, renal autotransplantation in dissecting, with renal artery involvement (Adib and Belzer), 686
  inoperable abdominal aortic, induced thrombosis of (Berguer, Schneider, and Wilner), 425
  popliteal, complications and treatment of (Inahara and Toledo), 775
  of renal artery: problems of prognosis and surgical management (Hageman et al.), 563
  traumatic lumbar artery false, transcatheter arterial embolization of (Haydu et al.), 288
Angiology, dynamic isotope, comparison of, with thigh/brachial pressure index: noninvasive assessment of aortoiliac disease (Hurlow et al.), 278
Angiotensin II blockade, evaluation of surgical response in renovascular hypertension using (Buda et al.), 664
Antibiotic(s) resistance, emerging phage types and, cyclic variations in, of *Staphylococcus aureus* (Altemeier and Lewis), 534
  some cephalosporin, biliary tract kinetics of (Trachtenberg et al.), 342
Antitumor immunity, effective, following elimination of suppressor T cell formation (Falk, Nossal, and Falk), 483
Aorta, abdominal, aortocaval fistula associated with aneurysm of: current management using autotransfusion techniques (Doty et al.), 250
Aortic aneurysm, renal autotransplantion in dissecting, with renal artery involvement (Adib and Belzer), 686
  surgery, central venous pressure or pulmonary capillary wedge pressure as determinant of fluid replacement in (Rice et al.), 437
Aortoiliac disease, noninvasive assessment of: comparison of dynamic isotope angiology with thigh/brachial pressure index (Hurlow et al.), 278
  reconstruction, optimal methods of (Brewster and Darling), 739
    in patients with combined iliac and superficial femoral arterial occlusion (Sumner and Strandness), 348
Arginine: essential amino acid for injured rats (Seifter et al.), 224
Arterial occlusion, combined iliac and superficial femoral, aortoiliac reconstruction in patients with (Sumner and Strandness), 348
  occlusive disease, peripheral, importance of combined multisegmental pressure and Doppler flow velocity studies in diagnosis of (Fronek, Coel, and Bernstein), 840
Arteriography, is it necessary in management of vascular trauma of extremities? (Turcotte, Towne, and Bernhard), 557
Artery(ies), internal carotid, hemodynamic assessment and surgical correction of kinking of (Stanton, McClusky, and Lamis), 793
  renal, aneurysms of: problems of prognosis and surgical management (Hageman et al.), 563
    stenosis following transplantation: etiology, diagnosis, and prevention (Ricotta et al.), 595
  visceral, injuries to (Graham et al.), 835
Aspirin and dypyridamole, prevention of platelet aggregation and adherence to prosthetic vascular grafts by (Oblath et al.), 37
Atherosclerosis, interventions in: review for surgeons (DePalma and Clowes), 175
Atresia, esophageal, and tracheoesophageal fistula: effect of delayed thoracotomy on survival (Grosfeld and Ballantine), 394
Audits, medical, in surgical education, use of (Goldstone and Way), 25
Autogenous blood, clinical application of induction of inflammation with (letter) (Ward), 691; reply (Myers), 691
Autotransfusion in cardiac surgical patients after operation (Schaff, Hauer, and Brawley), 713
  comparison techniques of (Mattox), 700
  emergency unit (Davidson), 703
  extraoperative, from hemothorax (Symbas), 722
  hematology of (Bell), 695
  intraoperative (Noon), 719
    with Bentley ATS-100 (Klebanoff), 708
  seminar course directors and faculty, 693
    introduction (Hauer and Brawley), 694
    panel discussion, 731
  techniques, current management using: aortocaval fistual associated with aneurysm of abdominal aorta (Doty et al.), 250
  use of washed red cells as adjunct to component therapy (Orr), 728
Autotransplantation, renal, in dissecting aortic aneurysm with renal artery involvement (Adib and Belzer), 686

B

Balloon embolectomy catheters, balloon and lateral wall pressures during use of (O'Donnell and Hobson), 583
  and lateral wall pressures during use of balloon embolectomy catheters (O'Donnell and Hobson), 583
Barium contrast study of upper gastrointestinal tract, should flexible fiberoptic endoscopy replace [it] (Knutson et al.), 609
Belch, modified fundoplication which preserves ability to (Menguy), 301
Below-knee reoperation, nonvein bypass in, for lower limb ischemia (Burnham et al.), 417
Bentley ATS-100, intraoperative autotransfusion with (Klebanoff), 708
Bilateral carotid endarterectomy, role of staging in (Satiani et al.), 784
Bile acid(s) are not equally damaging to gastric mucosa (Harmon, Doong, and Gadacz), 79
  -induced acute gastric mucosal damage, influence of methylprednisolone sodium succinate on (Ritchie, Cherry, and Gibb), 283
Biliary tract kinetics of some cephalosporin antibiotics (Trachtenberg et al.), 342
Bleeding vascular malformations of intestine (Richardson et al.), 430
Blood, autogenous, clinical application of induction of inflammation with (letter) (Ward), 691; reply (Myers), 691
  flow, coronary, application of thermography in study of (Robicsek et al.), 858
    gastric, Cimetidine and (Delaney, Michel, and Bond), 190
      mucosal, Cimetidine prevents reduction in, during shock (Levine et al.), 113
    pancreatic, effect of plasma and dextran on: experimental pancreatitis (Donaldson, Williams, Schenk), 313
  whole, vs. packed red cells for resuscitation of hemorrhagic shock: examination of host defense parameters in dogs (Beiting et al.), 194

*July, pp. 1-174; August, pp. 175-294; September, pp. 295-440; October, pp. 441-572; November, pp. 573-732; December, pp. 733-880.

Breast, cancer of, changing attitudes in management of (Lazaro, Rush, and Swaminathan), 441
Burn patients, necessity of increased doses of amikacin in (Zaske, Sawchuk, and Strate), 603
Bypass(es), extended extra-anatomic, and prosthetic reconstruction to foot arteries, new approaches to limb salvage by (Veith et al.), 764
gastric, vagal innervation of bypassed stomach following (Printen and Owensby), 455
jejunoileal, reanastomosis after (Halverson et al.), 241
nonvein, in below-knee reoperation for lower limb ischemia (Burnham et al.), 417

C

Cancer of breast, changing attitudes in management of (Lazaro, Rush, and Swaminathan), 441
Canine autogenous vein grafts, morphological evaluation of, in arterial circulation (Fonkalsrud, Sanchez, and Zerubavel), 253
kidneys, ischemically damaged, protective effect of propranolol in treatment of, prior to transplantation (Stowe et al.), 265
Cardiac output and oxygen consumption in critically ill surgical patients, use of arterial–central venous oxygen differences to calculate (Wilson and Gibson), 362
performance, humorally mediated alterations in, as consequence of positive end-expiratory pressure (Patten et al.), 201
surgical patients, autotransfusion in, after operation (Schaff, Hauer, and Brawley), 713
Cardioplegia, profound hypothermic, does potassium potentiate [it], for myocardial preservation (Schachner et al.), 94
Cardiovascular risk factors in patients with peripheral vascular disease (Cooperman et al.), 505
Carotid artery, internal, hemodynamic assessment and surgical correction of kinking of (Stanton, McClusky, and Lamis), 793
and coronary vascular disease, simultaneous, staged and combined surgical approach to (Hertzer et al.), 803
endarterectomy, bilateral, role of staging in (Satiani et al.), 784
—rationale (editorial) (Worman), 573
Catecholamine concentrations, regional endogenous plasma, in pulmonary hypertension (O'Neill et al.), 140
Catheter(s), balloon embolectomy, balloon and lateral wall pressures during use of (O'Donnell and Hobson), 583
embolectomy, and endothelial healing (letter) (Malone and Gervin), 865; reply (Chidi and DePalma), 866
Caustic ingestion, surgical management of tracheoesophageal fistula complicating (Burrington and Raffensperger), 329
Cell(s), packed red, whole blood vs., for resuscitation of hemorrhagic shock: examination of host defense parameters in dogs (Beiting et al.), 194
T, formation, suppressor, effective antitumor immunity following elimination of (Falk, Nossal, and Falk), 483
washed red, use of, as adjunct to component therapy: autotransfusion (Orr), 728
Central venous pressure or pulmonary capillary wedge pressure as determinant of fluid replacement in aortic surgery (Rice et al.), 437
Cephalosporin antibiotics, some, biliary tract kinetics of (Trachtenberg et al.), 342
Chemoimmunotherapy, adjuvant, limb-sparing surgery, and radiation therapy, prospective randomized evaluation of role of, in treatment of adult soft-tissue sarcomas (Rosenberg et al.), 62
Children, purulent pericarditis in (Garvin et al.), 471
Cholangiopancreatography, endoscopic retrograde (ERCP), in diagnosis of chronic pancreatitis (Mullen), 308
Cholecystokinin and cholecystokinin octapeptide, choleretic action of, in dogs (Shaw and Jones), 622
octapeptide, cholecystokinin and, choleretic action of, in dogs (Shaw and Jones), 622
Choleretic action of cholecystokinin and cholecystokinin octapeptide in dogs (Shaw and Jones), 622
Cholesterol, high-density lipoprotein–free as primary precursor for bile-acid synthesis in man, evidence for (Halloran et al.), 1
Cimetidine, control of acute gastroduodenal hemorrhage with (Bubrick et al.), 510
and gastric blood flow (Delaney, Michel, and Bond), 190
prevents reduction in gastric mucosal blood flow during shock (Levine et al.), 113
Circulation, arterial, morphological evaluation of canine autogenous vein grafts in (Fonkalsrud, Sanchez, and Zerubavel), 253
Cirrhosis, alcoholic, hepatic metabolism in patients with (Reichle et al.), 33
Claudication, intermittent, physical training of patients with: indication, methods, and results (Ekroth et al.), 640
vascular and neurogenic, rational approach to differentiation of (Goodreau et al.), 749
Colloidal gold scanning, determination of lymph shed by, in patients with malignant melanoma: preliminary study (Fee et al.), 626
Colonic problem: postoperative ileus? (Woods et al.), 527
strictures, inflammatory, colonoscopy in patients with (Max and Knutson), 551
Colonoscopy in patients with inflammatory colonic strictures (Max and Knutson), 551
Colostomy prolapse (Chandler and Evans), 577
Coronary blood flow, application of thermography in study of (Robicsek et al.), 858
carotid and, vascular disease, simultaneous, staged and combined surgical approach to (Hertzer et al.), 803
Cross-clamping, infrarenal aortic, in dogs, nitroglycerin infusion during: experimental study (Peterson, Brant, and Kirsh), 216
Cushing's syndrome, surgical management of (Delaney et al.), 465
Cyclic variations in emerging phage types and antibiotic resistance of *Staphylococcus aureus* (Altemeier and Lewis), 534

D

Dacron prostheses, failure of, caused by structural defect (Yashar et al.), 659
Defense, host, in guinea pig, effects of malnutrition on variables of (Wunder, Stinnett, and Alexander), 542
Dextran and plasma, effect of, on pancreatic blood flow: experimental pancreatitis (Donaldson, Williams, and Schenk), 313
Distal splenorenal shunts, fifty, observations on (Martin et al.), 379
Distress syndrome, adult respiratory, increased oxygen consumption accompanying increased oxygen delivery with hypertonic mannitol in (Rhodes et al.), 490
Dogs, examination of host defense parameters in: whole blood vs. packed red cells for resuscitation of hemorrhagic shock (Beiting et al.), 194
and in man, trials in: new method of preparation of segmental pancreatic grafts for transplantation (Dubernard et al.), 633
nitroglycerin infusion during infrarenal aortic cross-clamping in: experimental study (Peterson, Brant, and Kirsh), 216
Doppler flow velocity studies, combined multisegmental pressure and, importance of, in diagnosis of peripheral arterial occlusive disease (Fronek, Coel, and Bernstein), 840
Drainage studies, duodenal, place of, in diagnosis of pancreatic disease (Cooper et al.), 457
Duct drainage, long-term thoracic, clinical and immunological alterations observed in patients undergoing (Machleder and Paulus), 157
Duodenal drainage studies, place of, in diagnosis of pancreatic disease (Cooper et al.), 457
Dypyridamole, aspirin and, prevention of platelet aggregation and adherence to prosthetic vascular grafts by (Oblath et al.), 37

E

Ecosystem, fragile, of resident serfs, faculty yogis, and surgical commissars (Walt), 295
Education, surgical, use of medical audits in (Goldstone and Way), 25
Embolectomy catheter(s), balloon, balloon and lateral wall pressures during use of (O'Donnell and Hobson), 583

Embolectomy—Cont'd
and endothelial healing (letter) (Malone and Gervin), 865; reply (Chidi and DePalma), 866
Embolism and thrombosis, acute lower extremity arterial ischemia due to, management of (Blaisdell, Steele, and Allen), 822
Embolization, transcatheter arterial, of traumatic lumbar artery false aneurysm (Haydu et al.), 288
Emergency unit autotransfusion (Davidson), 703
Endarterectomy, bilateral carotid, role of staging in (Satiani et al.), 784
carotid—rationale (editorial) (Worman), 573
Endoscopic retrograde cholangiopancreatography (ERCP) in diagnosis of chronic pancreatitis (Mullen), 308
Endoscopy, flexible fiberoptic, should [it] replace barium contrast study of upper gastrointestinal tract (Knutson et al.), 609
Endothelial healing, embolectomy catheter and (letter) (Malone and Gervin), 865; reply to letter (Chidi and DePalma), 866
Endothelium, autogenous, single-staged technique for seeding vascular grafts with (Herring, Gardner, and Glover), 498
Endotoxemia, effect of exogenous substrate on hepatic metabolism and membrane transport during (McDougal et al.), 55
Extraoperative autotransfusion from hemothorax (Symbas), 722

F

Familial polyposis, management of, with preservation of rectum (Harvey, Quan, and Stearns), 476
Fat, protein and, utilization in shock (Daniel et al.), 588
Fatty acid deficiency, essential, in total parenteral nutrition: time course of development and suggestions for therapy (Goodgame, Lowry, and Brennan), 271
Fiberoptic endoscopy, flexible, should [it] replace barium contrast study of upper gastrointestinal tract (Knutson et al.), 609
Fibrinogen degradation product D, mechanisms of acute pulmonary dysfunction induced by (Manwaring, Thorning, and Curreri), 45
Fibrocystic mastopathy, hormones and pathophysiology of: elevated luteinizing hormone levels (Golinger et al.), 212
Fistula, aortocaval, associated with aneurysm of abdominal aorta: current management using autotransfusion techniques (Doty et al.), 250
tracheoesophageal, and esophageal atresia: effect of delayed thoracotomy on survival (Grosfeld and Ballantine), 394
surgical management of, complicating caustic ingestion (Burrington and Raffensperger), 329
Foot arteries, prosthetic reconstruction to, extended extra-anatomic bypasses and, new approaches to limb salvage by (Veith et al.), 764
Fractures, pelvic, mortality associated with (Rothenberger et al.), 356
Fundoplication, modified, which preserves ability to belch (Menguy), 301

G

Gastric blood flow, Cimetidine and (Delaney, Michel, and Bond), 190
bypass, vagal innervation of bypassed stomach following (Printen and Owensby), 455
mucosa, bile acids are not equally damaging to (Harmon, Doong, and Gadacz), 79
isolated, effects of lysolecithin on (Kivilaakso, Fromm, and Silen), 616
mucosal blood flow, Cimetidine prevents reduction in, during shock (Levine et al.), 113
damage, bile-acid–induced acute, influence of methylprednisolone sodium succinate on (Ritchie, Cherry, and Gibb), 283
Gastroduodenal hemorrhage, acute, control of, with Cimetidine (Bubrick et al.), 510
Gastroesophageal reflux in children, assessment of, by extended pH monitoring of distal esophagus (Jolley et al.), 16
Gastrointestinal hemorrhage, upper: aggressive management decreases mortality (Himal, Perrault, and Mzabi), 448
Gold scanning, colloidal, determination of lymph shed by, in patients with malignant melanoma: preliminary study (Fee et al.), 626
Grafts, pancreatic, segmental, new method of preparation of, for transplantation: trials in dogs and in man (Dubernard et al.), 633
vascular, single-staged technique for seeding, with autogenous endothelium (Herring, Gardner, and Glover), 498
Gram-negative septicemia, experimental, mechanisms of thrombocytopenia in (Rowe et al.), 87
Guinea pig, effects of malnutrition on variables of host defense of (Wunder, Stinnett, and Alexander), 542

H

Heart, hypertrophied, response of, to acute anemia and coronary stenosis (Anderson et al.), 8
Hematology of autotransfusion (Bell), 695
Hemodynamic assessment and surgical correction of kinking of internal carotid artery (Stanton, McClusky, and Lamis), 793
Hemorrhage, acute gastroduodenal, control of, with Cimetidine (Bubrick et al.), 510
upper gastrointestinal: aggressive management decreases mortality (Himal, Perralut, and Mzabi), 448
Hemorrhagic shock, whole blood vs. packed red cells for resuscitation of: examination of host defense parameters in dogs (Beiting et al.) 194
Hemothorax, exptraoperative autotransfusion from (Symbas), 722
Hepatic metabolism and membrane transport during endotoxemia, effect of exogenous substrate on (McDougal et al.), 55
in patients with alcoholic cirrhosis (Reichle et al.), 33
Heroin abuse, unrecognized complication of: occult splenic abscess (Fry et al.), 650
Heterologous grafts, replacement of inferior vena cava and iliac veins with, in animal tests (Horsch et al.), 644
High-density lipoprotein–free cholesterol as primary precursor for bile-acid synthesis in man, evidence for (Halloran et al.), 1
Hormones and pathophysiology of fibrocystic mastopathy: elevated luteinizing hormone levels (Golinger et al.), 212
Host defense in guinea pig, effects of malnutrition on variables of (Wunder, Stinnett, and Alexander), 542
Humoral immunity in experimental hyposlenism (Van Wyck et al.), 134
Humorally mediated alterations in cardiac performance as consequence of positive end-expiratory pressure (Patten et al.), 201
Hyperparathyroidism, results of reoperation for, with evaluation of preoperative localization studies (Edis et al.), 384
Hypertension, portal, following renal transplantation (Dickerman et al.), 322
pulmonary, regional endogenous plasma catecholamine concentrations in (O'Neill et al.), 140
renovascular, evaluation of surgical response in, using angiotensin II blockade (Buda et al.), 664
Hyposplenism, experimental, humoral immunity in (Van Wyck et al.), 134

I

Ileus, postoperative: colonic problem? (Woods et al.), 527
Iliac veins, inferior vena cava and, replacement of, with heterologous grafts in animal tests (Horsch et al.), 644
Immunity, effective antitumor, following elimination of suppressor T cell formation (Falk, Nossal, and Falk), 483
humoral, in experimental hyposplenism (Van Wyck et al.), 134
Immunocompetence, host, and tumor growth, effects of intravenous nutrition on, in malnourished animals (Daly, Copeland, and Dudrick), 655
Infancy, surgical management of islet-cell adenoma in (Rich et al.), 519
Infections, peritoneal, prognostic factors of, in transplant patients (Hau et al.), 403
Inferior vena cava and iliac veins, replacement of, with heterologous grafts in animal tests (Horsch et al.), 644

Inflammatory colonic strictures, colonoscopy in patients with (Max and Knutson), 551
Intermittent claudication, physical training of patients with: indication, methods, and results (Ekroth et al.), 640
Internal carotid artery, hemodynamic assessment and surgical correction of kinking of (Stanton, McClusky, and Lamis), 793
Intestine, bleeding vascular malformations of (Richardson et al.), 430
Intraoperative autotransfusion (Noon), 719
with Bentley ATS-100 (Klebanoff), 708
Intraperitoneal abscess, accuracy of techniques to detect (Norton, Eule, and Burdick), 370
Ischemia, acute lower extremity arterial, due to embolism and thrombosis, management of (Blaisdell, Steele, and Allen), 822
lower limb, nonvein bypass in below-knee reoperation for (Burnham et al.), 417
Islet(s)-cell adenoma, surgical management of, in infancy (Rich et al.), 519
pancreatic, tissue culture preservation and intramuscular transplantation of (Weber et al.), 166

J

Jejunoileal bypass, reanastomosis after (Halverson et al.), 241

K

Kidneys, ischemically damaged canine, protective effect of propranolol in treatment of, prior to transplantation (Stowe et al.), 265

L

(LeVeen) shunt, peritoneovenous, improved renal function and inhibition of renin and aldosterone secretion following (Berkowitz et al.), 120
Limb salvage, extended profundoplasty for (David and Drezner), 758
new approaches to, by extended extra-anatomic bypasses and prosthetic reconstruction to foot arteries (Veith et al.), 764
-sparing surgery, radiation therapy, and adjuvant chemoimmunotherapy, prospective randomized evaluation of role of, in treatment of adult soft-tissue sarcomas (Rosenberg et al.), 62
Lipoprotein–free cholesterol, high-density, as primary precursor for bile-acid synthesis in man, evidence for (Halloran et al.), 1
Localization studies, preoperative, results of reoperation for hyperparathyroidism, with evaluation of (Edis et al.), 384
Lung stretch, positive end-expiratory pressure, and decreased myocardial contractility (Manny et al.), 127
Lymph shed by colloidal gold scanning, determination of, in patients with malignant melanoma: preliminary study (Fee et al.), 626
Lysolecithin, effects of, on isolated gastric mucosa (Kivilaakso, Fromm, and Silen), 616

M

Macrophage uptake of radiopaque fluorocarbon emulsions, tumor imaging with x-rays using (Long et al.), 104
Malignant melanoma, determination of lymph shed by colloidal gold scanning in patients with: preliminary study (Fee et al.), 626
Malnourished animals, effects of intravenous nutrition on tumor growth and host immunocompetence in (Daly, Copeland, and Dudrick), 655
Malnutrition, effects of, on variables of host defense in guinea pig (Wunder, Stinnett, and Alexander), 542
protein, adverse effects of, on myocardial function (Kyger et al.), 147
Mannitol, hypertonic, increased oxygen consumption accompanying increased oxygen delivery with, in adult respiratory distress syndrome (Rhodes et al.), 490
Marfan's syndrome, acute supravavular stenosis following replacement of aortic valve and ascending aorta in patient with: report of case (Klopp et al.), 292
Mastopathy, fibrocystic, hormones and pathophysiology of: elevated luteinizing hormone levels (Golinger et al.), 212
Mechanical vs. pharmacological reduction in portal pressure: comparative study (Groszman et al.), 679
Medical audits in surgical education, use of (Goldstone and Way), 25
Melanoma, malignant, determination of lymph shed by colloidal gold scanning in patients with: preliminary study (Fee et al.), 626
Metabolism, hepatic, and membrane transport during endotoxemia, effect of exogenous substrate on (McDougal et al.), 55
in patients with alcoholic cirrhosis (Reichle et al.), 33
Methylprednisolone sodium succinate, influence of, on bile-acid–induced acute gastric mucosal damage (Ritchie, Cherry, and Gibb), 283
Mitral valve replacement, impact of simultaneous myocardial revascularization on operative risk, functional result, and survival following (Miller et al.), 848
Mortality associated with pelvic fractures (Rothenberger et al.), 356
Mucosa, gastric, bile acids are not equally damaging to (Harmon, Doong, and Gadacz), 79
relationship between ulceration and intramural pH of, during hemorrhagic shock (Kivilaakso, Fromm, and Silen), 70
isolated gastric, effects of lysolecithin on (Kivilaakso, Fromm, and Silen), 616
Mucosal blood flow, gastric, Cimetidine prevents reduction in, during shock (Levine et al.), 113
Myocardial contractility, decreased, positive end-expiratory pressure, and lung stretch (Manny et al.), 127
function, adverse effects of protein malnutrition on (Kyger et al.), 147
preservation, does potassium potentiate profound hypothermic cardioplegia for (Schachner et al.), 94
protection, optimal (Weisel et al.), 812

N

Neurogenic, vascular and, claudication, rational approach to differentiation of (Goodreau et al.), 749
Nitroglycerin infusion during infrarenal aortic cross-clamping in dogs: experimental study (Peterson, Brant, and Kirsh), 216
Nutrition, intravenous, effects of, on tumor growth and host immunocompetence in malnourished animals (Daly, Copeland, and Dudrick), 655
total parenteral, essential fatty acid deficiency in: time course of development and suggestions for therapy (Goodgame, Lowry, and Brennan), 271

O

Occlusion, combined iliac and superficial femoral arterial, aortoiliac reconstruction in patients with (Sumner and Strandness), 348
Occlusive disease, peripheral arterial, importance of combined multisegmental pressure and Doppler flow velocity studies in diagnosis of (Fronek, Coel, and Bernstein), 840
Occult splenic abscess: unrecognized complication of heroin abuse (Fry et al.), 650
Octapeptide, cholecystokinin, cholecystokinin and, choleretic action of, in dogs (Shaw and Jones), 622
Optimal myocardial protection (Weisel et al.), 812
Osteogenic and soft-tissue sarcomas, early lymphatic spread of (Weingrad and Rosenberg), 231
Oxygen consumption, cardiac output and, in critically ill surgical patients, use of arterial–central venous oxygen differences to calculate (Wilson and Gibson), 362
increased, accompanying increased oxygen delivery with hypertonic mannitol in adult respiratory distress syndrome (Rhodes et al.), 490
differences, arterial–central venous, use of, to calculate cardiac output and oxygen consumption in critically ill surgical patients (Wilson and Gibson), 362

P

Pancreatic disease, place of duodenal drainage studies in diagnosis of (Cooper et al.), 457

Pancreatic–Cont'd
grafts, segmental, new method of preparation of, for transplantation: trials in dogs and in man (Dubernard et al.), 633
islets, tissue culture preservation and intramuscular transplantation of (Weber et al.), 166
Pancreatitis, chronic, endoscopic retrograde cholangiopancreatography (ERCP) in diagnosis of (Mullen), 308
experimental: effect of plasma and dextran on pancreatic blood flow (Donaldson, Williams, and Schenk), 313
Peptic ulceration, prevention of, by highly selective vagotomy in new peptic ulcer experimental model: bile-duct–ligated pig (Terblanche and van Hoorn–Hickman), 206
Pelvic fractures, mortality associated with (Rothenberger et al.), 356
Pericarditis, purulent, in children (Garvin et al.), 471
Peripheral arterial occlusive disease, importance of combined multisegmental pressure and Doppler flow velocity studies in diagnosis of (Fronek, Coel, and Bernstein), 840
Peritoneal infections, prognostic factors of, in transplant patients (Hau et al.), 403
Peritoneovenous (LeVeen) shunt, improved renal function and inhibition of renin and aldosterone secretion following (Berkowitz et al.), 120
pH, intramural, ulceration and, of gastric mucosa, relationship between, during hemorrhagic shock (Kivilaakso, Fromm, and Silen), 70
monitoring of distal esophagus, assessment of gastroesophageal reflux in children by (Jolley et al.), 16
Pharmacological vs. mechanical reduction in portal pressure: comparative study (Groszman et al.), 679
Pig, bile-duct–ligated: prevention of peptic ulceration by highly selective vagotomy in new peptic ulcer experimental model (Terblanche and van Hoorn–Hickman), 206
Plasma catecholamine concentrations, regional endogenous, in pulmonary hypertension (O'Neill et al.), 140
and dextran, effect of, on pancreatic blood flow: experimental pancreatitis (Donaldson, Williams, and Schenk), 313
Platelet aggregation and adherence to prosthetic vascular grafts, prevention of, by aspirin and dypyridamole (Oblath et al.), 37
Polyposis, familial, management of, with preservation of rectum (Harvey, Quan, and Stearns), 476
Popliteal aneurysms, complications and treatment of (Inahara and Toledo), 775
Portal pressure, pharmacological vs. mechanical reduction in: comparative study (Groszman et al.), 679
vein, preduodenal: its surgical significance (Makey and Bowen), 689
Positive end-expiratory pressure, humorally mediated alterations in cardiac performance as consequence of (Patten et al.), 201
lung stretch, and decreased myocardial contractility (Manny et al.), 127
Potassium, does [it] potentiate profound hypothermic cardioplegia for myocardial preservation (Schachner et al.), 94
Preduodenal portal vein: its surgical significance (Makey and Bowen), 689
Pressure(s), balloon and lateral wall, during use of balloon embolectomy catheters (O'Donnell and Hobson), 583
central venous, or pulmonary capillary wedge pressure as determinant of fluid replacement in aortic surgery (Rice et al.), 437
combined mutisegmental, and Doppler flow velocity studies, importance of, in diagnosis of peripheral arterial occlusive disease (Fronek, Coel, and Bernstein), 840
portal, pharmacological vs. mechanical reduction in: comparative study (Groszman et al.), 679
pulmonary capillary wedge, or central venous pressure as determinant of fluid replacement in aortic surgery (Rice et al.), 437
Profundoplasty, extended, for limb salvage (David and Drezner), 758
Prolapse, colostomy (Chandler and Evans), 577
Propranolol, protective effect of, in treatment of ischemically damaged canine kidneys prior to transplantation (Stowe et al.), 265
Prostheses, Dacron, failure of, caused by structural defect (Yashar et al.), 659
Prosthetic failure, late vascular, plea for early recognition of (editorial) (Wesolowski), 575
reconstruction to foot arteries, extended extra-anatomic bypasses and, new approaches to limb salvage by (Veith et al.), 764
Protein and fat utilization in shock (Daniel et al.), 588
malnutrition, adverse effects of, on myocardial function (Kyger et al.), 147
Pulmonary capillary wedge pressure or central venous pressure as determinant of fluid replacement in aortic surgery (Rice et al.), 437
dysfunction, acute, mechanisms of, induced by fibrinogen degradation product D (Manwaring, Thorning, and Curreri), 45
hypertension, regional endogenous plasma catecholamine concentrations in (O'Neill et al.), 140
metastatic osteogenic sarcoma in children, resection of (Telander et al.), 335
Purulent pericarditis in children (Garvin et al.), 471

R

Radiation therapy, limb-sparing surgery, and adjuvant chemoimmunotherapy, prospective randomized evaluation of role of, in treatment of adult soft-tissue sarcomas (Rosenberg et al.), 62
Radiopaque fluorocarbon emulsions, tumor imaging with x-rays using macrophage uptake of (Long et al.), 104
Rats, injured, essential amino acid for: arginine (Seifter et al.), 224
Reanastomosis after jejunolileal bypass (Halverson et al.), 241
Reconstruction, aortoiliac, optimal methods of (Brewster and Darling), 739
prosthetic, to foot arteries, extended extra-anatomic bypasses and, new approaches to limb salvage by (Veith et al.), 764
Rectum, management of familial polyposis with preservation of (Harvey, Quan, and Stearns), 476
Red cells, washed, use of, as adjunct to component therapy: autotransfusion (Orr), 728
Reflux, gastroesophageal, in children, assessment of, by extended pH monitoring of distal esophagus (Jolley et al.), 16
Renal artery, aneurysms of: problems of prognosis and surgical management (Hageman et al.), 563
stenosis following transplantation: etiology, diagnosis, and prevention (Ricotta et al.), 595
autotransplantion in dissecting aortic aneurysm with renal artery involvement (Adib and Belzer), 686
transplantation, portal hypertension following (Dickerman et al.), 322
Renovascular hypertension, evaluation of surgical response in, using angiotensin II blockade (Buda et al.), 664
Respiratory distress syndrome, adult, increased oxygen consumption accompanying increased oxygen delivery with hypertonic mannitol in (Rhodes et al.), 490
Revascularization, simultaneous myocardial, impact of, on operative risk, functional result, and survival following mitral valve replacement (Miller et al.), 848

S

Salvage, limb, extended profundoplasty for (David and Drezner), 758
Sarcoma(s), adult soft-tissue, prospective randomized evaluation of role of limb-sparing surgery, radiation therapy, and adjuvant chemoimmunotherapy in treatment of (Rosenberg et al.), 62
osteogenic and soft-tissue, early lymphatic spread of (Weingrad and Rosenberg), 231
pulmonary metastatic osteogenic, in children, resection of (Telander et al.), 335
Scanning, colloidal gold, determination of lymph shed by, in patients with malignant melanoma: preliminary study (Fee et al.), 626

Septicemia, experimental gram-negative, mechanisms of thrombocytopenia in (Rowe et al.), 87
Shock, protein and fat utilization in (Daniel et al.), 588
Shunt(s), fifty distal splenorenal, observations on (Martin et al.), 379
peritoneovenous (LeVeen), improved renal function and inhibition of renin and aldosterone secretion following (Berkowitz et al.), 120
selective splenocaval: alternate choice (letter) (Orozco et al.), 691
Soft-tissue sarcomas, osteogenic and, early lymphatic spread of (Weingrad and Rosenberg), 231
Splenic abscess, occult: unrecognized complication of heroin abuse (Fry et al.), 650
Splenocaval shunt, selective: alternate choice (letter) (Orozco et al.), 691
Splenorenal shunts, fifty distal, observations on (Martin et al.), 379
Staging, role of, in bilateral carotid endarterectomy (Satiani et al.), 784
Staphylococcus aureus, cyclic variations in emerging phage types and antibiotic resistance of (Altemeier and Lewis), 534
Stenosis, acute supravalvular, following replacement of aortic valve and ascending aorta in patient with Marfan's syndrome: report of case (Klopp et al.), 292
coronary, and acute anemia, response of hypertrophied heart to (Anderson et al.), 8
renal artery, following transplantation: etiology, diagnosis, and prevention (Ricotta et al.), 595
Stomach, bypassed, vagal innervation of, following gastric bypass (Printen and Owensby), 455
Strictures, inflammatory colonic, colonoscopy in patients with (Max and Knutson), 551
"Surgery, unnecessary": update (Rutkow and Zuidema), 671
vascular—it is different? (DeWeese), 733
Surgical commissars, fragile ecosystem of resident serfs, faculty yogis, and (Walt), 295
Syndrome, adult respiratory distress, increased oxygen consumption accompanying increased oxygen delivery with hypertonic mannitol in (Rhodes et al.), 490
Cushing's, surgical management of (Delaney et al.), 465

T

T cell formation, suppressor, effective antitumor immunity following elimination of (Falk, Nossal, and Falk), 483
Thermography, application of, in study of coronary blood flow (Robicsek et al.), 858
Thigh/brachial pressure index, comparison of dynamic isotope angiology with: noninvasive assessment of aortoiliac disease (Hurlow et al.), 278
Thoracic duct drainage, long-term, clinical and immunological alterations observed in patients undergoing (Machleder and Paulus), 157
Thoracotomy, delayed, effect of, on survival: esophageal atresia and tracheoesophageal fistula (Grosfeld and Ballantine), 394
Thrombocytopenia, mechanisms of, in experimental gram-negative septicemia (Rowe et al.), 87
Thrombosis, embolism and, acute lower extremity arterial ischemia due to, management of (Blaisdell, Steele, and Allen), 822
induced, of inoperable abdominal aortic aneurysm (Berguer, Schneider, and Wilner), 425
Tissue culture preservation and intramuscular transplantation of pancreatic islets (Weber et al.), 166
Total parenteral nutrition, essential fatty acid deficiency in: time course of development and suggestions for therapy (Goodgame, Lowry, and Brennan), 271
Tracheoesophageal fistula, surgical management of, complicating caustic ingestion (Burrington and Raffensperger), 329
Transcatheter arterial embolization of traumatic lumbar artery false aneurysm (Haydu et al.), 288
Transplant patients, prognostic factors of peritoneal infections in (Hau et al.), 403
Transplantation, intramuscular, of pancreatic islets, tissue culture preservation and (Weber et al.), 166
new method of preparation of segmental pancreatic grafts for: trials in dogs and in man (Dubernard et al.), 633
protective effect of propranolol in treatment of ischemically damaged canine kidneys prior to (Stowe et al.), 265
renal artery stenosis following: etiology, diagnosis, and prevention (Ricotta et al.), 595
portal hypertension following (Dickerman et al.), 322
Trauma, vascular, of extremities, is arteriography necessary in management of? (Turcotte, Towne, and Bernhard), 557
Tumor growth and host immunocompetence, effects of intravenous nutrition on, in malnourished animals (Daly, Copeland, and Dudrick), 655
imaging with x-rays using macrophage uptake of radiopaque fluorocarbon emulsions (Long et al.), 104

U

Ulceration and intramural pH of gastric mucosa, relationship between, during hemorrhagic shock (Kivilaakso, Fromm, and Silen), 70
peptic, prevention of, by highly selective vagotomy in new peptic ulcer experimental model: bile-duct–ligated pig (Terblanche and van Hoorn–Hickman), 206
"Unnecessary surgery": update (Rutkow and Zuidema), 671
Upper gastrointestinal hemorrhage: aggressive management decreases mortality (Himal, Perrault, and Mzabi), 448

V

Vagotomy, highly selective, prevention of peptic ulceration by, in new peptic ulcer experimental model: bile-duct–ligated pig (Terblanche and van Hoorn–Hickman), 206
Valve, mitral, replacement, impact of simultaneous myocardial revascularization on operative risk, functional result, and survival following (Miller et al.), 848
Vascular disease, peripheral, cardiovascular risk factors in patients with (Cooperman et al.), 505
simultaneous carotid and coronary vascular disease, staged and combined surgical approach to (Hertzer et al.), 803
grafts, single-staged technique for seeding, with autogenous endothelium (Herring, Gardner, and Glover), 498
malformations, bleeding, of intestine (Richardson et al.), 430
and neurogenic claudication, rational approach to differentiation of (Goodreau et al.), 749
prosthetic failure, late, plea for early recognition of (editorial) (Wesolowski), 575
surgery—it is different? (DeWeese), 733
trauma of extremities, is arteriography necessary in management of? (Turcotte, Towne, and Bernhard), 557
Vein grafts, canine autogenous, morphological evaluation of, in arterial circulation (Fonkalsrud, Sanchez, and Zerubavel), 253
preduodenal portal: its surgical significance (Makey and Bowen), 689
Vena cava, inferior, and iliac veins, replacement of, with heterologous grafts in animal tests (Horsch et al.), 644
Visceral arteries, injuries to (Graham et al.), 835

X

X-rays, tumor imaging with, using macrophage uptake of radiopaque fluorocarbon emulsions (Long et al.), 104
